COURT CLERK  
J

**COMPLAINT AND DEMAND FOR JURY TRIAL**

There is presently a case in this Court, between the City of Flint and similarly situated Plaintiff Class Members that have similar, if not the exact, same factual issues as Plaintiff Class Members hereinafter alleged; that may require consolidation on all issues other than damage; being

Case No. 14-103476-CZ

  
Brenda Williams (P36769)

**COMPLAINT**

NOW COME Plaintiffs DORIS COLLINS, ROBIN PLEASANT, JASON PHINISEE  
ON BEHALF OF THEMSELVES AND A CLASS OF ALL OTHERS SIMILARLY SITUATED, by and through  
their Attorney Brenda Williams, and complain of Defendants as follows:

## **PARTIES**

1. Plaintiff Dorris Collins, hereinafter referred to as Plaintiff, is and was at all times, a resident of the City of Flint, County of Genesee, State of Michigan, and received water from the City of Flint; and each month paid the City for water pursuant to the contractual agreement as provided on the monthly statement. The contract between the City of Flint and its water customers, Flint City Ordinance 46-16, provides that Flint is the vendor of water service and its customers are the purchasers of the water commodity.
  
2. Plaintiff Jason Phinisee, hereinafter referred to as Plaintiff, is and was at all times, a resident of the City of Flint, County of Genesee, State of Michigan, and received water from the City of Flint; and each month paid the City for water pursuant to the contractual agreement as provided on the monthly statement. The contract between the City of Flint and its water customers, Flint City Ordinance 46-16, provides that Flint is the vendor of water service and its customers are the purchasers of the water commodity.
  
3. Plaintiff Robin Pleasant, hereinafter referred to as Plaintiff, is and was at all times, a resident of the City of Flint, County of Genesee, State of Michigan, and received water from the City of Flint; and each month paid the City for water pursuant to the contractual agreement as provided on the monthly statement. The contract between the City of Flint and its water customers, Flint City Ordinance 46-16, provides that Flint is the vendor of water service and its customers are the purchasers of the water commodity.

## **DEFENDANTS**

4. Defendant Rick Snyder is the Governor of the State of Michigan, and is invested with executive power to take control and has taken control of a municipality, the City of Flint, pursuant to Public Act 4 of 2011; Public Act 72 of 1990 and Public Act 436 of 2012.
5. Defendant State of Michigan operates its Department of Environmental Quality (MDEQ), and is responsible for the management of the water quality for the city of Flint, and who made the decision to replace safe drinking water with poisonous water. Accordingly, the State is sued because, acting through MDEQ and pursuant to the authority of Act 72 and Act 436, it caused the City of Flint, its agent under the Financial Management Act, to breach its contract with its water customers; approximately 31,000 customers.

## **ALLEGATIONS AND STATEMENT OF FACT**

6. On November 29, 2011, the Governor appointed Michael Brown as the Emergency Manager for the City of Flint, pursuant to Public Act 4 of 2011.
7. Following Michael Brown, Edward Kurtz was appointed Financial Manager.
8. Following Edward Kurtz, Michael Brown was appointed Financial Manager again.
9. Following Michael Brown, Darnell Early was appointed Financial Manager. Early served until January 13, 2015.
10. Following Early, Gerald Ambrose was appointed Emergency Manager for the City of Flint, and served in that capacity until April 30, 2015.
11. Since April 30, 2015, the City of Flint continues operating only as an agent of the State as the State has authority over the city through its Oversight Board.
12. From 2011 through the present date, the State operates the City of Flint.

13. The State to this date, and since 2011, operated, controlled and exercised statutory authority over the operation of the City of Flint; including the decision to disconnect from the Detroit water system thereby providing poisoned water to Plaintiffs herein.
14. On October 8, 2015, Defendant Snyder, after pressure from local authorities and citizens of the city of Flint, ordered that Flint reconnect to the Detroit water system.
15. Once the Governor took over the City, pursuant to Public Act 436 of 2012, the Governor and State had power and authority to “appoint and to prescribe the power and duties of the Financial Manager,” including to terminate contracts and to decide the type of water Plaintiffs would be provided.
16. That although the governor has reconnected to the Detroit water system, experts have declared that Flint water is still not safe to drink.
17. That the County, the City of Flint and the School Board have all declared Flint water as being unsafe to drink.
18. That each of the Plaintiffs herein continue to perform their end of the bargain by continuing to pay for drinking water that they cannot drink.
19. That once the Governor, pursuant to statutes, took control of the City of Flint, the acts and conduct of the city and its employees are merely as agents of the Governor and the State of Michigan. (See City of Flint Ordinance #46-16)
20. That the relationship between Plaintiffs and the City of Flint, acting as Agent for the Governor and the State, are vendors and purchasers.
21. That water is a commodity.

22. That city of Flint was contractually obligated to supply drinkable water to Plaintiffs under a contract created by Flint City ordinance 46-16 and Plaintiffs were all contractually obligated to pay for said services.
23. That the City has breached that contract by admitting that they have not provided drinkable water to its customers (Plaintiffs) from April 2014 to present; although the Plaintiffs have all duly paid for drinkable water.
24. That each of the above Defendants have individually and/or as agents of the State and City knowingly and intentionally caused the contract to be breached.
25. That as a direct result of said breach, the Plaintiffs have been damaged to exact to payments for drinkable water that was undrinkable.
26. That Plaintiffs were unable to mitigate their damages under threat of a water shutoff.

#### **ALLEGATIONS AS TO CLASS**

27. This action is brought by Plaintiffs as a class action solely as to the issue that the City admittedly breached its contract with Plaintiffs in that the City has failed to provide drinkable water to Plaintiffs from April 2014 to present.
28. There are approximately 40,000 household residents. The exact number of members of the class is unknown, but is ascertainable and known to be approximately 31,000; of those residents that have paid each water as submitted to them by the City.
29. That there are common questions of law and facts in this action as it relates to the rights of each member of the class and the relief sought is common to the entire class.
30. The claims of Plaintiffs' Representatives of the class are typical of the claims of the class, in that the claims of all members of the class including the herein named Plaintiffs, are

the same and there are no conflicts between any individual named Plaintiff and any other member of the class.

31. This action is properly maintained as a class action in that the prosecution of separate actions by individual members of the class identified herein would create risk of inconsistent/varying adjudication respecting individual members.
32. The named Plaintiffs are the representatives for the class and are able to and will fairly and adequately protect the interests of the class.
33. That while each class members' damages may differ, their damages are easily quantifiable based on the Plaintiffs' water bills, a complete history of all are contained on the City of Flint computer system and may be proved by way of summary at trial; i.e. the value of drinkable water versus non-drinkable water is readily determinable as to this class, with or without expert testimony.

#### **COUNT I**

#### **BREACH OF CONTRACT**

34. Plaintiffs incorporate by reference the above paragraphs as though more fully set forth herein.
35. The State of Michigan, the Governor and the City of Flint as agent for the State and Governor including the individual Defendants all directly or indirectly have admittedly breached or caused to be breached the contractual obligation to supply the Plaintiffs drinkable water.
36. Each of the Plaintiffs have paid for drinkable water for the entire period in question or a portion thereof and continue to do so.

37. That as a result of the admitted breach of the Defendants, Plaintiffs have been damaged to the extent of the payment for drinkable water that they were advised by Defendants not to drink and which was undrinkable.

38. The damages herein are separate and distinct from those of case 14-103476-CZ.

## **COUNT II**

### **UNJUST ENRICHMENT**

39. Plaintiffs incorporate by reference the above paragraphs as though more fully set forth herein.

40. The Defendants have received the benefits of the monies paid by Plaintiffs, and have admittedly used said funds for the day to day operation of the City of Flint.

41. The use of said funds without providing drinkable water as promised, constitutes unjust enrichment to the extent of monies collected.

## **COUNT III**

### **BREACH OF IMPLIED WARRANTY**

42. Plaintiffs incorporate by reference the above paragraphs as though more fully set forth herein.

43. That known to all parties the City of Flint, if it did not directly promise to provide drinkable water, impliedly promised the fitness of the water for use as drinkable water.

44. That the City of Flint admitted supplying poisonous water, an admission that the water was not fit for its intended use.

45. That said fact and/or admission is a breach of an implied contract.

## **COUNT IV**

### **VIOLATION OF CONSUMER PROTECTION ACT**

46. Plaintiffs incorporate by reference the above paragraphs as though more fully set forth herein.

47. Prior to the time the State was forced to admit that it was responsible for poisoning the water, the State knowingly made false statements concerning the drinkability of the water. The State's statements that the water was suitable as drinking water were acts that were unfair, deceptive and practiced in violation of the Michigan Consumer Protection Act. MCLA 445.903(1).

48. The State and/or the Governor and/or the City of Flint filed false, and/or caused to be published false, reports regarding the contaminated water, all in violation of MCL 445.903(1).

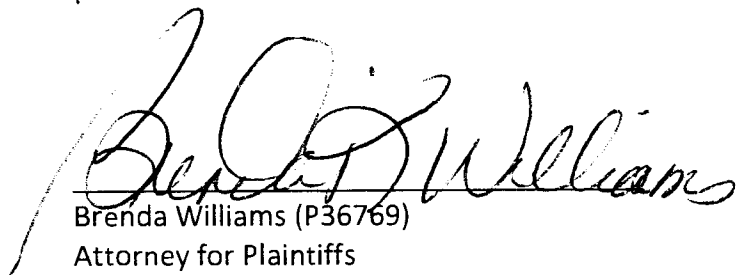

### **RELIEF REQUESTED**

Accordingly, Plaintiffs request the following relief from this Honorable Court:

- a. An order certifying the class;
- b. An order declaring the Defendants breached their contract with Plaintiffs;
- c. An order that Defendants are in violation of the Consumer Protection Act by engaging in deceptive acts and/or practices;
- d. An order awarding actual damages suffered by Plaintiffs;
- e. An order awarding attorney fees and costs of litigation; and
- f. Any and all other damages as this Court deems appropriate.
